The following is an examiner's statement of reasons for allowance:

The instant claims are drawn to a veneer and a process for producing the veneer. The examiner considers that the term, "veneer", carries patentable weight and further considers that the term corresponds to an article or manufacture as defined within page 3, lines 14+ of the specification. Accordingly, the position is ultimately taken that the claims are governed or limited by three criteria; the first criterion being the claimed components [a), b), c), and d)], the second criterion being the claimed relationship between the aforementioned components [i.e.; the weight percent relationship between b11), b12), b13), and b14)], and the third criterion being the aforementioned definition of "veneer". Therefore, the instant claims are deemed to be allowable over the prior art of record, because the prior art fails to disclose or render obvious an article or manufacture satisfying the aforementioned three criteria.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication should be directed to R. Sergent at telephone number (571) 272-1079.
